CASUAL CHIC

Mary-Kate is known for experimenting with her style. Here, MK works simple, slightly textured hair with natural make-up and black liquid liner. We reveal how to recreate her look below.

1 THE HAIR Mary-Kate's look is all about bed hair. Using a curling wand or hot rollers, create a few loose curls at the ends of your hair – making sure they're loose and not perfect. Pull them out and add texture using a hair wax or pomade. Take the top sections of the hair and pin back using a few grips. Keep some strands out at the front of the face to add some softness to the look.

2 THE MAKE-UP Mary-Kate's make-up palette is very neutral, matte and on trend! Follow her lead by using a semi-matte finish foundation. Use a loose mineral powder and dust over the top, especially on the T-zone and oily areas. Create classic lined eyes using a black liquid eyeliner. Line the top eyelid and avoid creating too much of a wing on the outer corners. Apply a few lashings of mascara and sweep some metallic shadow along the bottom eyelid. Create a glow using an illuminating bronzer and finish using a matte nude lipstick.
